VER - Unitest Marine Simulators
 The best way to acquire practical experience is to learn from real life in a real engine room. However, the efficiency requirements do not allow for this kind of on-board education, hence the training has to be carried out on a simulator. Practicing decision-making in a simulator environment, where decisions and their effects are monitored, provides an exceptional opportunity to evaluate the ...

Engine Room Simulator - (ERM) - Simwave
 ? A highly realistic simulator for ship's engine room training which can also be used as a low cost introductory simulator. ? The mathematical model simulates a typical ship's engine room with four 4-stroke, medium speed engines, driving through reduction gears the controllable pitch propellers.
