This text provides students with a solid understanding of the relationship between the structure, processing, and properties of materials. Authors Askeland and Wright present the fundamental concepts of atomic structure and the behavior of materials and clearly link them to the "materials" issues that students will have to deal with when they enter the industry or graduate school (e.g ...

Essentials of Modern
Materials Science and
Engineering | Wiley. This
book begins with four
fundamental tenants: The
properties of a material are
determined by its structure.
Processing can alter that
structure in specific and
predictable ways; The
behavior of materials is
grounded in science and is
understandable; The
properties of all materials
change over time with use
and exposure to
