To be sure a great deal has been written on the philosophy of science; perhaps even more has been written in science education. However, surprisingly little has been written on the relation between the two areas. I In this paper I will suggest some ways in which philosophy of science can have relevance for science education.

The Relevance of Philosophy of Science for Science ...

Despite the tight historical links between science and philosophy, present-day scientists often perceive philosophy as completely different from, and even antagonistic to, science. We argue here that, to the contrary, philosophy can have an important and productive impact on science.
