Smartphone photography is taking pictures with your phone. It could be an iPhone or Android, old or new. If you have a smartphone, you're more than half-way there. You might need an app or two, an extra set of lenses and a power bank. [Note: ExpertPhotography is supported by readers. Product links on ExpertPhotography are referral links.]

Images in quick succession by simply keeping the Shutter button pressed. You can then delete the images you don't want. Steady Hands. One of the basic smartphone photography tips that any professional will give you is to keep your hands steady while shooting. A lightweight phone, as opposed to a heavier camera, can actually make this more challenging.
